Treasury Department,

BUREAU OF THE MINT,

Washington, D. C., April 24, 1893.

The Superintendent, U. S. Mint,

Philadelphia, Pa.

Sir:

I have received the models of the head of Isabella and must compliment the mint upon the very excellent work which they have done in the preparation of these models.

I submitted them to the Secretary and he was very much pleased with them, especially the profile view of the young queen, which I also prefer. I have sent them to Mrs. Potter Palmer at Chicago with instructions to return them direct to the mint, and as soon as I hear from her I will let you know which one will be adopted. My present impression is that the profile head of the young queen will be adopted.

I return to-day the model of the reverse, which is adopted, with the exception of the lettering, which I indicated to you on Saturday, and which will be, around the figure "Board of Lady Managers" and at the bottom "Columbian Quar. Dol". If it is impossible to give the word "Columbian" on a line or semicircle with the words "Quar. Dol" please manage to have it inscribed above the words "Quar. Dol" even if in smaller type; that is to say, it is very desirable that the word "Columbian" should go on the coin.

as rapidly as possible

You are instructed to proceed with the execution of the design for the reverse, and with the design of the obverse as soon as it is received back from Chicago.

Very respectfully,

E. E. Leach

Director.
